Lily's Homemade was created for one reason -
To provide our daughter, Lily, with sausages that are Safe, Free from Chemical, Preservative, MSG, Gluten and nasty fillers.

At Lily's, we only use top quality cuts of pork that are free from growth hormones and antibiotic. Mixed with local and imported herbs and spices.

Since we started making sausages for our loved ones, why not share the joy and tasty goodness with everyone.

It just so happens we make a really good sausage too!
